

*As at 12 February 2020*

SUNDAY 3 MAY 2020							
0815-1745	Registration Open - Crown Ballroom Foyer						
0900-1030	Masterclass 1	Mini Hack	Masterclass 2	Masterclass 3	Masterclass 4A	Masterclass 5	Masterclass 6
	Working effectively with children who have autism and their families Christine Yoshinaga-Itano & Alison King	Future-proofing adult rehabilitation services: be the change you want to see	Connected hearing care: your future as an audiologist in an online world Deborah Ferrari & Jenny Smith	Shaping your future: foundations for a successful private practice Robert Traynor, Dirk de Moore & Stephen Logan	Cerumen management and impression taking Kaushalya Troy, Meg Bumpstead, Rebecca Wood & Domenica Goncalves	Vestibular clinical cases – from diagnosis to interpretation Kamran Barin	Advancing expertise in infant diagnostic evoked potentials assessment Mridula Sharma, Julia Wunderlich & Rachael Hyder
1030-1045	Morning Tea - Crown Ballroom Foyer			Morning Tea - Botanical Foyer			
1045-1215	Masterclass 1 - Continued	Mini Hack	Masterclass 2	Masterclass 3 - Continued	Masterclass 4A - Continued	Masterclass 5 - Continued	Masterclass 6 - Continued
	Working effectively with children who have autism and their families Christine Yoshinaga-Itano & Alison King	Future-proofing adult rehabilitation services: be the change you want to see	Connected hearing care: your future as an audiologist in an online world Deborah Ferrari & Jenny Smith	Shaping your future: foundations for a successful private practice Robert Traynor, Dirk de Moore & Stephen Logan	Cerumen management and impression taking Kaushalya Troy, Meg Bumpstead, Rebecca Wood & Domenica Goncalves	Vestibular clinical cases – from diagnosis to interpretation Kamran Barin	Advancing expertise in infant diagnostic evoked potentials assessment Mridula Sharma, Julia Wunderlich & Rachael Hyder
1215-1315	Lunch - Crown Ballroom Foyer			Lunch - Botanical Foyer			
1315-1445	Masterclass 1 - Continued	Mini Hack	Masterclass 7	Masterclass 8	Masterclass 4B	Masterclass 9	Masterclass 10
	Working effectively with children who have autism and their families Christine Yoshinaga-Itano & Alison King	Future-proofing adult rehabilitation services: be the change you want to see	Hyperacusis and disorders of sound tolerance David Baguley	Competing in a new era of hearing healthcare: strategic development and marketing for private audiology practitioners Robert Traynor & Katherine Toates	Cerumen management and impression taking Kaushalya Troy, Meg Bumpstead, Rebecca Wood & Domenica Goncalves	Advanced vestibular masterclass: VHit & SHIMP (suppression head impulse test) and tests of vestibular compensation Kamran Barin, Dayse Tavora-Vieira & Roberta Marino	Am I bad, mad, sad or really just an imposter? 10 critical things every audiology professional should know to prevent imposterism and burnout Dunay Schmulian
1445-1500	Afternoon Tea - Crown Ballroom Foyer			Afternoon Tea - Botanical Foyer			
1500-1630	Masterclass 1 - Continued	Mini Hack	Masterclass 7 - Continued	Masterclass 8 - Continued	Masterclass 4B - Continued	Masterclass 9 - Continued	Masterclass 10 - Continued

1630-1745	Libby Harricks Memorial Oration  Indigenous ear and hearing health: tackling the silent epidemic Harvey Coates						
1830-2030	Trivia Night (Family Friendly)						

MONDAY 4 MAY 2020

0745-1800	Registration Open - Crown Ballroom Foyer							
0830-1930	Exhibition Open - Grand Ballroom							
0900-1100	Opening Plenary - Shaping Your Future							
0900-0915	Welcome to Country							
0915-0930	Presidents Welcome							
0930-1015	Future Crunch							
1015-1100	Suzanne Waldron							
1100-1130	Morning Tea - Exhibition Hall (Grand Ballroom)							
1130-1300	Concurrent Session 1A	Thought Leadership Session 1B	Symposium 1C	Concurrent Session 1D	Concurrent Session 1E	Learning Labs 1F	Learning Labs 1G	Accelerate Stage
Topic		Well Hearing is Well Being	Stem Cell Treatment	Prevalence: Current State and Service	Rehabilitation & Counselling Skills	Exploring auditory processing intervention and parent counselling	Audiological Care of Single-Sided Deafness and Asymmetric Hearing Loss	Careers
1130-1145	To be announced	Well hearing is well being Angela Pelosi & Julia Sarant  Phonak	What is happening with the latest stem cell treatments in hearing research? Elaine Wong, Filippo Valente, Cecilia Prele, Samuel McLenachan, Lize Coetzee & Rodney Dille	Turning the tide – state of ears for Aboriginal children in Western Australian (Data 2015 to 2019) Lara Shur	Reframing hearing through multiple lenses Catherine McMahon	Exploring auditory processing intervention and parent counselling Eloise Doherty	Making meaningful differences in audiological care of clients with SSD and AHL Colleen Psarros	To be announced
1145-1200				Age of first hearing aid fitting for Aboriginal and Torres Strait Islander children: progress in ten years Samantha Harkus	Use of the behaviour change wheel to design an intervention to improve the implementation of family-centred care in adult audiology services Katie Ekberg			
1200-1215				Optimizing the pathway to implantation for infants: survey of paediatric cochlear implant candidacy evaluation practices across Australia and New Zealand Jaime Leigh	Implementing a family-centred audiological rehabilitation program for adults with hearing impairment and their family members: a pre-post intervention comparison Nerina Scarinci			
1215-1230				Learning from the past to inform the future – demographics of Australian aided children from 1955 to the present day Alison King	Design thinking reveals what clinicians need to assist adults experiencing difficulties understanding speech in noise beyond the audiogram Ingrid Yeend			
1230-1245				Mini Clinic: a multi-disciplinary model of care for Aboriginal and Torres Strait Islander Children in remote communities Emily Bryant	How senior managers of hearing rehabilitation organisations define success, evaluate success and evaluate person-centred care Gerard William			
1245-1300				To be announced	Patient-centred and patient-defined: the elements of successful hearing rehabilitation as determined by clients and families David Allen			
1300-1400	Lunch - Exhibition Hall (Grand Ballroom)							
1330-1400	Poster Session - Exhibition Foyer (Grand Ballroom Foyer)							

1400-1530	Concurrent Session 2A	Thought Leadership Session 2B	Concurrent Session 2C	Concurrent Session 2D	Symposium 2E	Learning Labs 2F	Learning Labs 2G	Solution Suites
Topic		Clinical Implications of 3D Ear Scanning	Hearing Loss in Older Adults	Future Needs & Pathways	Early Detection and Intervention for Aboriginal and Torres Strait Islander Children	Tackling Mental Health: Design Thinking Workshop	Talking to Clients About Hearing Options	
1400-1415	To be announced	3D ear scanning – What are the Clinical implications? Tony Rainer	Optimising hearing-related communication for care home residents with dementia (ORCHARD): a realist synthesis Melanie Ferguson	Global hearing health care resources revisited: implications for capacity building Helen Goulios	Early detection and intervention for Aboriginal and Torres Strait Islander children in urban to remote settings Matthew Brown, Christopher Brennan-Jones, Valerie Swift, Amy Mival, Selma Kum-Sing, Lynette Dimer, Sarah Murthy, Nikkita Dean, Rose Walley & Meegan Ward	Let’s tackle mental health together: a design thinking workshop Bec Bennett, Azadeh Ebrahimi-Madiseh, Kat Penno, Michelle Olaithe & Evonne Miller	Are you ready for “that” conversation? Learn how to identify and confidently talk to your clients about their hearing options Sarah Love & Siew-Moon Lim	Solution Suites
1415-1430			Hearing loss is associated with social and emotional well-being in older adults? Dona Jayakody	Creating the narrative of why hearing is a public health problem – WHO’s world report on hearing Catherine McMahon & Sandra Bellekom				
1430-1445			Otometrics	Impact of hearing, cognition and personal factors on hearing rehabilitation Grace Nixon				
1445-1500		Interdisciplinary work: mental health, cross referrals and working together with other health care professionals	Maximising the care for an older person in later years: a multidciplinary panel	Optimising hearing help-seeking pathways starting in the General Practitioner’s office Caitlin Barr				
1500-1515				Educational escape rooms: a contemporary learning activity for allied health and nursing professions Prasha Sooful				
1515-1530				Remote Area Health Corps				
1530-1600	Afternoon Tea - Exhibition Hall (Grand Ballroom)							
1600-1730	Plenary 2							
1600-1645	Denis Byrne Memorial Lecture Sandra Bellekom							
1645-1730	Audiology Australia update - strategic plan & hot topics of the profession AudA Board							
1730-1930	Welcome Reception - Exhibition Hall (Grand Ballroom)							

TUESDAY 5 MAY 2020								
0800-1700	Registration Open (Crown Ballroom Foyer)							
0830-1700	Exhibition Open (Grand Ballroom)							
0900-1030	Plenary 3							
0900-0945	Adopting hearing loss prevention in spaceflight to traditional hearing conservation practices and the roles of audiology in assessing auditory fitness for duty in hearing-critical jobs Dick Danielson  Measuring client outcomes that matter Jane Wild							
0945-1030								
1030-1100	Morning Tea - Exhibition Hall (Grand Ballroom)							
1100-1230	Plenary 4A - Tinnitus			Plenary 4B - Paediatrics		Plenary 4C - Differentiation, Diversification and Relevance		
1100-1145	Current theories on the neural substrate of subjective tinnitus Wilhelmina Mulders			The role of the audiologist in promoting social-emotional well-being of the child and family Christine Yoshinaga-Itano		A differentiation strategy using co-morbidity screening and monitoring, coupled with major changes to the diagnostic evaluation Robert Traynor  Staying relevant with rehabilitation services Deborah Ferrari		
1145-1230	Contemporary issues in diagnosis and management of tinnitus David Baguley							
1230-1330	Lunch - Exhibition Hall (Grand Ballroom)							
1300-1330	Poster Session - Exhibition Hall (Grand Ballroom)							
1330-1500	Concurrent Session 3A	Thought Leadership Session 3B	Concurrent Session 3C	Concurrent Session 3D	Learning Labs 3E	Learning Labs 3F	Learning Labs 3G	Accelerate Stage
Topic	Grand rounds - Addressing Complex Needs: Adults	Standard of Care	Vestibular Function and Rehabilitation	Managing Hearing Loss in Pediatric Populations	Embedding Empathy in Person-Centred Care	Ethical Selling of Hearing Aid Solutions	Identifying Listening and Communication Problems in Aboriginal and Torres Strait Islander Children	Business
1330-1345	Grand rounds - addressing complex needs: adults Faciliatetd by Jane Wild	Standards of care  Cochlear	Is chemotherapy ototoxic to cochleo-vestibular function in childhood cancer survivors? Nor Haniza Abdul Wahat	Barriers and facilitators to student engagement for children who are deaf or hard of hearing Michelle Todorov	Is it possible that person-centred care is all about empathy? How to embed empathy across your clients' entire clinical experience Caitlin Barr & Jessica Vitkovic	The importance of non-manipulative ethical selling of hearing aid solutions Oliver von Borstel	PLUM and HATS: identifying listening and communication problems in Aboriginal and Torres Strait Islander children aged 0-5 years Teresa Ching, Samantha Harkus, Meagan Ward & Sanna Hou	To be announced
1345-1400			Peripheral auditory and vestibular dysfunction following non-blast related traumatic brain injury Bojana Sarkic	Shaping the future: the impact of mentoring for deaf and hard-of-hearing teenagers Chi Yhun Lo				
1400-1415			Booklet based vestibular rehabilitation to improve chronic vertigo and balance problems Uvini Colonne	The effect of music education on the auditory processing of children with hearing loss Eloise Doherty				
1415-1430			Third-party disability in vestibular disorders Lauren Story	Bone conduction amplification in children. Stimulation via a percutaneous abutment versus a transcutaneous softband Stephanie Carrick				
1430-1445			Understanding experiences of significant others in cases of ongoing vestibular disorders Lauren Story	Coordinating paediatric hearing aid fitting and allied health therapies for children with hearing loss: case studies of trans-disciplinary early intervention Heidi Limareff & Allison Watts				
1445-1500			To be announced	The importance of grief-work during the early management of hearing loss Dunay Schmulian				

1500-1530	Afternoon Tea - Exhibition Hall (Grand Ballroom)							
1530-1700	Concurrent Session 4A	Thought Leadership Session 4B	Concurrent Session 4C	Concurrent Session 4D	Concurrent Session 4E	Learning Labs 4F	Learning Labs 4G	Accelerate Stage
Topic	Audiology Rehabilitation & Outcomes		Cochlear Implants	AudA National competency Standards	Optimising Hearing Technology	Solutions-based Auditory Processing Therapy	Wellness & Ergonomics for the Audiologist	Careers
1530-1545	Self-reported outcomes for 467 Aboriginal and Torres Strait Islander adult users of hearing aids in Australia Samantha Harkus	Thought Leadership Session and Technology Update  Oticon	A suggested cochlear implant programming schedule for adults based on a retrospective review of programming data and programming session attendance Karyn Galvin	AudA national competency standards	An experimental investigation of audiologists’ ratings of fit-to-target: how close is close enough? John Newall	Experiencing solutions-based auditory processing evaluations & therapy Angela Alexander & Samantha Lenz	Wellness and inner ergonomics for the audiologist Raymond Taylor & Anikó Ball	To be announced
1545-1600	Empowering hearing aid users: it’s not the technology but what people do with the technology Melanie Ferguson		Electrically evoked cortical auditory response: an objective tool to for CI optimisation Dayse Tavora-vieira		Attitudes of hearing aid users towards using smart voice assistant technology Taegan Young			
1600-1615	Auditory habilitation and rehabilitation techniques for cochlear implant recipients with single sided deafness Jane Brew		Assessing cognitive effort during speech-in-noise perception test with pupillometry: from normal hearing to cochlear implant Stephanie Carrick		Developing a new software for cochlear implants Ben Fernee			
1615-1630	Clearing the pathway with online hearing.tools Agnes Au		What do current measures of listening tell us about everyday communication? Katie Neal		The more the merrier? A comparison of subjective and objective outcomes with clients using basic and premium levels of technology Dominic Power			
1630-1645	Facilitating cochlear implantation with an individualised and sustainable service delivery Angela Liew	Technology Update  Bernafon	New Frontiers in Cochlear Implantation – Acoustic neuroma and Cochlear schwannoma removal and simultaneous cochlear implantation Jafri Kuthubutheen		A qualitative investigation of the experiences of clients, significant others, and clinicians using wireless microphone systems Nerina Scarinci			
1645-1700	The evolving needs of clients with pre-lingual hearing loss: a case study Jenny Smith				Audiological and subjective benefits of the ADHEAR hearing system compared to an existing bone conduction device on a softband Roberta Marino			
1900-Late	Conference Dinner							

WEDNESDAY 6 MAY 2020								
0830-1600		Registration Open (Crown Ballroom Foyer)						
0830-1330		Exhibition Open (Grand Ballroom)						
0900-1030	Concurrent Session 5A	Thought Leadership Session 5B	Concurrent Session 5C	Symposium 5D	Concurrent Session 5E	Learning Labs 5F	Learning Labs 5G	Solution Suites
Topic	Hearing Loss Prevention	Connectivity Now and in the Future	Tinnitus & Hyperacusis	Auditory Processing and Autism Spectrum Disorders	Cochlear Implant Symposium and Live Surgery	Using Wideband Acoustic Immittance in Clinical Populations	Vestibular Service Models	
0900-0915	Preventing hearing injury in the music industry Siobhan McGinnity	Connectivity now and into the future  GN Hearing Australia	The effect of tinnitus on working memory capacity and on performance and perceived exertion in an office-like task Wayne Wilson	Auditory Processing Disorder (APD) or Executive Function Disorder (EFD)? John Bench	The role of surgery in end stage hearing loss: live cochlear implant surgery Colleen Psarros, Dakota Bysouth-Young, Elizabeth Lockett & Phillip Chang	Effects of middle ear disorders on wideband acoustic immittance in clinical populations Venkatesh Aithal	Vestibular service models – from triage to full clinical balance assessment Trong Nguyen	Solution Suites
0915-0930	Prevention of Hearing Loss Brent Edwards		Tinnitus in the Australian working population Kate Lewkowski	Reduced fibre density in the auditory brainstem white matter tracts in X-linked auditory neuropathy Julien Zanin				
0930-0945	Hearing Australia		Children and adolescents are not adults: why should we assess their lived experience with tinnitus Susan Tegg-quinn	Working with children who have autism spectrum disorder who use cochlear implants Jane Brew				
0945-1000	To be announced		Tinnitus in children and adolescence: clinical applications and recommendations Susan Tegg-quinn	Factors affecting speech perception and language outcomes for children using cochlear implants with an Autism Spectrum Disorder Richard Dowell				
1000-1015		To be announced	Grand Rounds - Tinnitus & Hyperacusis	Soundfield amplification for primary school students on the autism spectrum Wayne Wilson				
1015-1030				Electrophysiological indices in a clinical sample of children with listening difficulties, with and without APD Wayne Wilson				
1030-1100	Morning Tea - Exhibition Hall (Grand Ballroom)							

1100-1230	Concurrent Session 6A	Thought Leadership Session 6B	Concurrent Session 6C	Concurrent Session 6D	Concurrent Session 6E	Learning Labs 6F	Learning Labs 6G	Accelerate Stage
Topic	Grand Rounds: A Multi-Disciplinary Approach to Managing Complex Diagnostic Cases		Audiology Student Education & Clinician Skills	Reducing the Impact of Hearing Loss on Children and Parents	Cochlear Implant Symposium and Live Surgery - Continued	Addressing Pyschosocial Impacts of Hearing Loss	Neuro-linguistic programming for audiologists – a transformational approach to adult rehab counselling	Careers
1100-1115	A multi-disciplinary approach to managing complex diagnostic cases	Thought Leadership Session & Technology Update  National Hearing Care	The impact of psychosocial communication on organisational-valued outcomes Gerard William	Narrative listening therapy – a methodology to reduce the impact of listening problems on children Nicola Linton	The role of surgery in end stage hearing loss: live cochlear implant surgery (continued) Colleen Psarros, Dakota Bysouth-Young, Elizabeth Lockett & Phillip Chang	Let the hearing aid address the hearing loss, let the audiologist address the psychosocial impacts Bec Bennett	Neuro-linguistic programming for audiologists – a transformational approach to adult rehab counselling Heidi Modrovich	To be announced
1115-1130			Student perceptions of ABR and VROA simulated learning environments in paediatric audiology Stephanie Morris	One isn't half of two: the lived experience of parents whose children are managed for single-sided deafness Dunay Schmulian				
1130-1145			Development of web-based modules, an innovative approach to teaching clinical decision making for infant diagnostic hearing assessments Kelley Graydon	Sharing information with parents on permanent childhood hearing loss: a focus on the diagnostic audiology report Rachael Hyder				
1145-1200			Decision making biases in the allied health professions, with a focus on the field of audiology Karyn Galvin	Working with Families from CALD Backgrounds	The importance of pre-cochlear implant vestibular testing and team case discussions in reducing vestibular disturbance post-implantation Roberta Marino			
1200-1215			To be announced		Cochlear Implant Candidacy Panel Jaime Leigh, Valerie Looi, Azadeh Ebrahimi-Madiseh, Nimi Daya & Agnes Au			
1215-1230								
1230-1330	Lunch - Exhibition Hall (Grand Ballroom)							

1330-1445	Concurrent Session 7A	Thought Leadership Session 7B	Concurrent Session 7C	Concurrent Session 7D	Concurrent Session 7E	Learning Lab 7F	Symposium 7G
Topic	Accessing affordable hearing solutions: how to better model pricing to provide better access		Capturing Real-World Experiences	Paediatrics	Innovation in Service Models	How to innovate service delivery and stand out in a crowd	Cochlear implant outcomes in the ageing population
1330-1345	Accessing affordable hearing solutions: how to better model pricing to provide better access Facilitated by Katheleen Stoop Panel Members: Robert Traynor Caitlin Barr & Matthew Callaway	Thought Leadership Session and Technology Update  Starkey	The good ear: characterising unilateral hearing loss in real-world environments Paola Incerti	Learning difficulties and AP deficits in a clinical sample of primary school aged children Seong Min Robyn Choi	A strategic and systems approach to improving access to paediatric hearing assessment Lia Traves	From patient-centred care to human-centred service design; how to innovate service delivery Azadeh Ebrahimi-Madiseh, Bec Bennett, Kat Penno, Evonne Miller	Cochlear implant outcomes in the ageing population – never too early nor too late Marcus Atlas, Dona Jayakody, Jamie Leigh & Holly Teagle
1345-1400			Capturing the real world, real time stigma experiences of adults with hearing impairment Barbra Timmer	Are children with reading and listening disorders same or different? Mridula Sharma	Targeted hearing screening in the community – a delegation model Lia Traves		
1400-1415			Consumer and clinician views on a mobile-device app to track real-life listening experiences to better assess listening difficulties and needs Karyn Galvin	Semantic processing in children with cochlear implants: evidence from auditory event-related potentials Wayne Wilson	TeleFUP: successes and challenges in developing a teleaudiology follow-up program for Aboriginal and Torres Strait Islander children in remote communities Samantha Harkus		
1415-1430			To be announced	Language trajectories for children using cochlear implants: examination of mutable and non-mutable child, device and family risk factors Richard Dowell	Consumer choices in an online world: what can 10 years of online practice tell us about effective use of teleaudiology Sophie Brice		
1430-1445		To be announced		To be announced	Implementation of advanced scope audiology at Fiona Stanley Hospital WA Dayse Tavora-Vieira		
1445-1500	Change Over					Change Over	
1500-1600	Plenary 5						
1500-1545	The future of audiology panel						
1545-1600	Conference wrap up & closing remarks						
1600-1700	Farewell Drinks & Canapes						

THURSDAY 7 MAY 2020				
0730-1000	Optional Site Tour	1000-1530	Optional Swan Valley Tour	Optional Swan Valley Tour
	<b>Ear Science Institute Australia</b> Surgical training lab, Basic Research, Clinical research, Adult Hearing service delivery <b>Telethon Kids Institute</b> Clinical Research, discovery centre <b>Telethon Speech and Hearing</b> Paediatric Services, Early intervention, Paediatric implants		<b>"Let's talk business"</b> Fun wine tour with Robert Traynor	<b>"Let's talk paediatrics"</b> Fun wine tour with Christine Yoshinaga-Itano
